SPEAKING of the League of Nations Senator Swanson of Virginia says: "If this League is consummated, as contemplated, it means immediately that four-fifths of the world, and Ironton Sunday. eventually all the world, agrees to cease from wars of conquest and despoilment. If adhered to it would eliminate the causes which have produced most of the wars of the past. If observed, there is not a member of the League, great or small, that ever noon. would have its individual political existence threatened; and no more would the history of the world be en- Sunday. cumbered with the frightful wreck of conquest." Every word of this is true, and to me it is incomprehensible that any peace-loving, justice-seeking person should oppose such a League. Accident Prevention.

Regional Director Bush, of the for the first four months of 1919, 30 in Ironton. persons were kiled and 180 injured in automobile accidents on railroad crossings on the 23 railroads in that region. In view of this appalling number of accidents and the increasing number of automobiles throughout the territory served by these roads an active campaign against such accidents has been instituted.

During 1917, 1,777 persons were killed and 4,356 injured on railroad crossings in the United States. 4,243 trespassers were killed and 3,829 injured during the same year.

By perfecting a Safety organization of railroad employes a remarkable reduction in accidents has been made. During the month of May, reductions of more than fifty per cent were reported and on the Missouri Pacific Railroad alone a decrease of seven in juries daily since August 1, 1918, has been made. This has proven that accident prevention is a matter of

An appeal has been issued to ministers and to the press to aid in the campaign against carelessness, and it is believed that such a drive against automobile accidents and trespassing will prove equally as successful as the recent effort among employes. Posters have been placed in railroad waiting rooms, gasoline filling stations and garages asking motorists and teamsters to stop, look and listen before crossing railroad tracks; also advising autoists not to attempt to Crops are looking! wefl in that sec-"high" which increases the danger of killing engine on crossing.

A recent report from the Manager Morris McKee last week. of the Safety Section, at Washington, shows the following interesting figures. She was born in Des Arc, Febof 1918 is reported. .

"Safety First" has proven a profitable slogan for railroad men in the way of life and limb saved, and there is no doubt but that it would result in surprising decreases in casualties if adopted by the general public.

Annapolis News.

No rain yet, but fine prospects. The ground is very dry.

The new bank building is under way, Mr. Weber of Reynolds county has three men, besides himself, at work on the job. The structure will be of brick, 20x30 feet, two stories. It is being built on the corner where the late Jos. G. Clarkson did business when a resident of this town.

Huckleberries and blackberries are about all gone. Hazel uuts will be the next crop to save. Walnuts are scarce, as the late frosts ruined them. White and black oak mast is scarce. In the lowlands there are no apples and peaches. There is a fine crop of peaches on the old Sperod farm, out on the mountain, between Annapolis and Lesterville. Parson Colyctte informs me that there are, at least caldulation, \$700 worth of peaches on that place, of the finest, as fine as ever grew.

Wheat and oats are very good here. The potato crop is as good as could be expected, as bugs and worms are numerous. We may have a fair corn crop, if we could only get one good

Fishing with a net is common on Black river. More then a thousand fish were caught in three days on of the fish were taken out of the net and the others left on the bank for the flies to eat. It looks as though the game warden ought to get busy. Kelly & Moss are hauling lumber from their mill to the railroad to ship. Cars seem to be scarce.

The porch at Sam Moss' house gave way last night. Fortunately no one was hurt.

Gus Funk has cut his alfalfa for the second time this summer. The second crop was not so good as the first, because of the dry weather.

Chas. E. Bolch went to Bismarck

It is hoped the price of bread will come down to five cents soon.

Yes, Mr. Webb, of the West End, I think it would be a wise thing for the government to purchase the old battle-field at Pilot Knob and make it a national park, and have reunions every year for the gray and blue, as we used to have. And why not use the Rifle Range, near Arcadia? It has not been used for target practice for a dozen years or more, and would be a good place for a health resort for the soldiers.

Lucien Goodman recently bought a fine mare of L. O. Russell. The animal had the misfortune to get into a mesh of barbed wire and cut herself so badly that she had to be knocked in the head last Saturday. People should be more careful about leaving wire ying around.
